CONTACT: Greg Perkins @ 250-743-8948 or liahonasecurity@shaw.ca

****Course Fees non-refundable after May 10th, 2010****

LEVEL I CPTED CERTIFICATE COURSE

1.0 Goals

The goal of this basic Crime Prevention Through Environmental Design (CPTED) course, is to provide the participant with a solid, practical, working knowledge of CPTED. To provide the successful participant with the necessary skills and knowledge to become actively involved in the planning, design and/or development process as it relates to preventing crime and nuisance behaviour through the incorporation of CPTED design strategies. To understand the direct relationship between the physical environment and crime. The awareness of the relationship between design professionals, municipalities and CPTED Practitioners in creating safer more productive environments.

1.1 Strategies

Course instructors will present their subjects in classroom and field trip settings, utilizing audio, visual and site inspection techniques and experiences. The bulk of participant learning will be done in a "hands on" manner, utilizing individual and syndicate projects.

Projects and a written test will provide the participant with the opportunity to demonstrate their understanding of course objectives. Daily case study assignments will prepare participants for the main syndicate project at the end of the course.

This final project will utilize all principals of CPTED, urban planning, architectural and landscape design and land use. Syndicates will be assigned sites and asked to provide design recommendations for reducing crime and nuisance behaviour along with future plans for development.

Each syndicate will make an in-class presentation on the final day. Presentations will be critiqued and evaluated by classmates and instructors. Successful participants will be issued with a Level I CPTED Certificate.

Some evening work is involved in Level I CPTED Course. Evening work can be accomplished according to participant's availability.

Level I Basic CPTED Course is a pre-requisite for those wishing to take the Level II Advanced CPTED Course.

WHO SHOULD ATTEND?

- Police Service Members & Officers
- Architects
- Landscape Architects
- Urban Planners
- Crime Prevention Unit Officers & Employees
- Crime Free Multi-Housing Officers & Employees
- Town & City Design Professionals
- Town & City Councilors & Officials
- By-Law Enforcement
- Building Inspectors
- Fire Inspectors
- Public Sector Security Officers
- Private Sector Security Professionals
- Provincial & Federal Agencies
- Business Improvement Associations
- Design Review Committee Members
- Zoning & Planning Committee Members
- Facility Management
- Property Management

Anyone involved or interested in designing safer, sustainable, more profitable environments.

FACILITATOR

Greg Perkins

Greg Perkins is a former 14 year member of the London City Police Department and the principal owner of Liahona Security Consortium Inc.

Liahona Security Consortium is a Security Consulting firm established in 1995 that specializes in Crime Prevention Through Environmental Design (CPTED) consulting and instruction, threat and risk assessment, loss prevention assessment, corporate training, security system design, evaluation and project management.

Mr. Perkins received his Level I and Level II CPTED Certification through the National Crime Prevention Institute (NCPI) at the University of Louisville (Kentucky) and has been consulting and lecturing on CPTED for over 15 years. He currently provides CPTED training throughout British Columbia, Canada and the United States. Liahona Security has been the sole source provider of CPTED training to the "E" Division RCMP for the past 10 years.

Mr. Perkins is one of the foremost experts on CPTED in Canada and has lectured to Federal, Provincial, Regional and Municipal Governments and Design Professional Associations. Mr. Perkins is associated with such professional organizations as: the International CPTED Association (ICA), British Columbia Crime Prevention Association (BCCPA), British Columbia Society of Landscape Architects (BCSLA) and the Planning Institute of British Columbia (PIBC) and is also Founder & Chair of the non-profit Society - CPTED BC Association.
